

Revision History - New Features

Revision	Database Version	19/04/2011	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Suppliers can be deleted even if there are related items - any related items are re-assigned to the default supplier		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
When using the 'back' key the lase current selection is preserved		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	15/03/2011	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Non-inventory items now visible on delivery item summary report		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	02/02/2011	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Item notes field now available in 'received items by project'		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Multiple report templates now available for Stock Outputs		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	14/02/2011	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Non-empty categories can be deleted - any related items are re-assigned to the default category before deleting the category		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	12/01/2011	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
'Adjust Stock To Zero' menu option added to obsolete items		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	27/09/2010	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Cost + VAT added to invoices	4.58	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cust Items by Project - order value + VAT and Cost + VAT added		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	Database Version	20/09/2010	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
CO Cost column (items by project) - total cost was derived from delivered quantity not ordered quantity - fixed		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Revision	4.6.80	Database Version	15/09/2010	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch	
	Cost column added to CO items by project			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Revision	4.6.78	Database Version	4.57	18/08/2010	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
	'Total Cost, Margin and %Margin columns have been added to the 'Invoices' lists.			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	'Delivered Value, Margin and %Margin columns have been added to the 'Customer Order Items by Project' lists.			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	'Received Value' and 'Outstanding Value' columns have been added to the 'Purchases by Project' lists.			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	An option to require confirmation before updating GRN's has been provided (accessed from 'Database Properties - Standard Pack' configuration).			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	An option to turn off auto-quantity calculation on purchase orders has been provided (accessed from 'Database Properties - Standard Pack' configuration).			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Component Transactions: Supplier / Customer names have been added to the transactions listings			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	A 'Credit Limit' column has been added to customer lists.			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision	4.6.70	Database Version	4.54	21/07/2010	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
	Stock Number Generation: Each time a component or assembly is added a sequential number can be generated automatically in the 'Stock Code' field, the number is one greater than the current maximum value. So manually entering 90000 when creating a new component will cause all subsequent additions to increment from this number. This feature permits the use of alpha-numeric stock codes in the form N, CN, NC or NCN where N is any number and C is any string of characters, in these cases only the number part is incremented. This feature may be enabled from 'Database Properties - Standard Pack' configuration.			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	A 'Notes' field has been added for components and assemblies - this is 255 characters long and is only visible in the 'View/Edit' form view. It may be enabled from 'Database Properties - Standard Pack' configuration.			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Pay Rates: Additional fields have been added to Assembly views as follows: 'Pay Rate 2', 'Time 2', 'Pay Rate 3', 'Time 3'. The 'Labour Cost' is derived based on the sum of pay rates x build times. Pay rates only apply to assemblies that are manufactured (i.e. not purchased complete). If an assembly has no supplier ('-') it is assumed to be manufactured. For manufactured assemblies, the unit cost is derived from the sum of the components, sub-assemblies and labour costs and is not editable. Labour costs may be entered manually or derived from the sum of build times x pay rates. If one or more pay rates is selected the labour cost is derived automatically and the field is no longer editable.			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Price Multipliers: A new folder has been added under the 'Company Folder'. This allows specification of price 'multipliers' that may be related to components, assembly materials and assembly labour. It is possible to associate a multiplier value with any component or assembly. Default multipliers may be specified for components, assembly materials and assembly labour. If specified these values will be associated with all new components or assemblies and will be used to derive selling prices. If a multiplier is selected for a part, the selling price is calculated and is no longer editable.

Revision	Database Version	Date	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
4.6.60	4.53	30/03/2010									
With this version it is now possible to permanently delete components, warehouses, warehouse locations, customers and suppliers even when related transactions exist. To do this you must be logged on as the administrator (default name: 'admin', pw 'saturn').											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Deleting a location (from 'Warehouse' - [Warehouse Name] - 'Stock By Location') will transfer all related location transactions to the warehouse 'Floor'.											
			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Deleting a warehouse will also delete warehouse locations transferring all location transactions within the warehouse to the 'Floor' of the main warehouse (SIMD) so it is strongly recommended that any stock in the warehouse be manually re-assigned before deleting.											
			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Deleting a customer will cause all references to the customer to be replaced with the default customer (your company name).											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Deleting a supplier will cause all references to the supplier to be replaced with the default supplier ('-').											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Components may be permanently deleted from the 'Obsolete' folder. This will remove all references from the transaction history and all related tables. The only caveat is that there must be no works orders raised against them - something you do not do											

Revision	Database Version	Date	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
4.6.47	4.51	08/12/2009									
GRN's printouts now provide virtually unlimited space for serial numbers.											
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The 'Invoice' folder now includes an extra sub-folder labeled "# Projects". This folder groups invoices by project and sales reports may be generated for specific projects.											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Delivery documentation can be generated from Stock Outputs - select an item in a Stock Out folder or open the output group and select 'View/Print'. This uses the same template as the delivery note but the note number is the transaction reference.											
			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Revision	Database Version	Date	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
4.6.42	4.50	29/09/2009									
Modifications to documents to include Way Bill numbers Full customisation of the Returns Note to include company logos etc.											
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<i>Revision</i>	<i>Database Version</i>	<i>18/08/2009</i>	<i>Core</i>	<i>Std.</i>	<i>WH</i>	<i>Assy.</i>	<i>W O</i>	<i>INV</i>	<i>S Nos</i>	<i>L/R</i>	<i>Sch</i>
<i>4.6.37</i>	<i>4.47</i>								<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Miscellaneous Parameters: Up to four fields of configurable data may be specified and associated with (and printed on) GRN's and Delivery Notes. This feature may be used, for example, to record HMRC data. On delivery notes these details will normally be carried over from the relevant GRN and will not require re-entry. However it is possible to specifically assign details to a delivery note, in which case these details will override any GRN details.											
<i>Revision</i>	<i>Database Version</i>	<i>16/03/2009</i>	<i>Core</i>	<i>Std.</i>	<i>WH</i>	<i>Assy.</i>	<i>W O</i>	<i>INV</i>	<i>S Nos</i>	<i>L/R</i>	<i>Sch</i>
<i>4.6.23</i>			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Alternative report layouts for assemblies and works orders. Wastage percentages may be assigned to items and actual wastage specified on works orders (Non-WH only).											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
New 'Order Scheduling' Module											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Alternative method to create OB in a new Warehouse (when multiple warehouses are present). Select the destination warehouse using the warehouse selector and open the 'All' folder under Components, or the Assemblies folder in the lower panel. Locate the item in the source warehouse by opening the 'Warehouses' folder in the upper panel and then opening 'Stock by Category' or 'Stock by Supplier'. Drag the require item into the lower panel to create a (zero) opening balance in the new warehouse.											
			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The results of a 'Search Filter' when looking for products (e.g. %grey%) are now also applied to the related part summary report.											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Alternative drag & drop method to transfer stock to new WH. Select the destination warehouse using the warehouse selector and open the 'All' folder under Components, or the Assemblies folder in the lower panel. Locate the item in the source warehouse by opening the 'Warehouses' folder in the upper panel and then opening the 'Physical Stock' folder. Dragging an item from the upper view to the lower view will transfer one item to the new location.											
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Option to group assemblies by category											
<i>Revision</i>	<i>Database Version</i>	<i>29/11/2008</i>	<i>Core</i>	<i>Std.</i>	<i>WH</i>	<i>Assy.</i>	<i>W O</i>	<i>INV</i>	<i>S Nos</i>	<i>L/R</i>	<i>Sch</i>
<i>4.5.30</i>			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
None											
<i>Revision</i>	<i>Database Version</i>	<i>08/11/2008</i>	<i>Core</i>	<i>Std.</i>	<i>WH</i>	<i>Assy.</i>	<i>W O</i>	<i>INV</i>	<i>S Nos</i>	<i>L/R</i>	<i>Sch</i>
<i>4.5.29</i>	<i>4.36</i>		<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Stocktake lists may now be filtered by category in addition to location.											
			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Items may now be dragged from a GRN directly into a Customer Order. When items are added in this manner they inherit the related purchase item cost.											
<i>Revision</i>	<i>Database Version</i>	<i>28/10/2008</i>	<i>Core</i>	<i>Std.</i>	<i>WH</i>	<i>Assy.</i>	<i>W O</i>	<i>INV</i>	<i>S Nos</i>	<i>L/R</i>	<i>Sch</i>
<i>4.5.26</i>	<i>4.35</i>										

Revision	Database Version	Date	Core	Std.	WH	Assy.	W O	INV	S Nos	L/R	Sch
Revision 4.4.32	Database Version 4.29	20/03/2008									
When entering stocktake data retrospectively it was theoretically possible to reduce a value below zero. There is now a check in place to prevent this.			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision 4.4.24	Database Version 4.29	30/01/2008									
Warehouse selector (available when multiple warehouse option is enabled) allows viewing of stock by category, supplier etc. for each warehouse.			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Search options available with Stock Inputs			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision 4.4.07	Database Version 4.26	20/11/2007									
New option to prevent delivery of out of stock items (non-warehouse mode)			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Price Matrix feature added.			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
New option to prevent editing of purchase order order units			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
New 'Stock Usage' report			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
New 'Warranty Date' feature for tracking warranty dates on received items			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
'Send to Warehouse Location' menu option lists all locations not just main warehouse locations			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision 4.3.41	Database Version 4.23	10/09/2007									
New configuration option for Customer Order Acknowledgements - show tax.			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision 4.3.38	Database Version	07/08/2007									
Stock Count form and printout now shows 'Stock Value' as the value on the first day of the stocktake. The 'Counted Value' shows the latest counted value.			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
New report option - Assembly report showing bin locations (non WH mode) or bin default locations (WH mode)			<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The default 'Search' option is now user-configurable; can be set to 'Stock Code, Part Name or Part Description.			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Revision 4.3.36	Database Version	23/07/2007									

Item Values and Unit Costs.

Since there are now more options fo reporting sales margins etc. the following may be relevant:

When the system is configured to use mean costs it will value stock based on the mean price paid during the specified period (last year by default). If items have not been purchased during this period it will use the unit cost currently specified for the item.

When a Customer Order is raised the nominal purchase costs are taken from the current unit price not the mean cost. However the system can be configured to automatically update the item's unit cost with the latest cost or latest mean value each time the item is purchased.

Simply go to the 'Database Options' tab and click Standard Pack configuration. Under 'Std. Features' in the lower half of the form select the 'Auto-Update with Latest Purchase Cost' or 'Auto-Update With Latest Mean Cost' option.

There is a new menu option 'Tools - Database Utilities - Refresh Unit Costs' ; this will cause all unit costs (except for items with no specified supplier) to be updated to the latest cost.

Delivery Notes:

There is now an option to include 'To Follow' items on delivery notes. Go to the 'Documents' tab and check the box 'Show 'To Follow' Items'.

It is also now possible to include non-inventory items on delivery notes if you want to. Simply right-click on the non-inventory customer order item and select the 'Deliver on Delivery Note' menu option.

Picking Lists:

There is now an option to show full customer details on picking lists. Go to the 'Database Options' tab and click the warehouse configuration button. Check the box 'Show Full Customer Address on Picking Lists'.

Sales Reports:

These reports now include options to show item costs and sales margins in addition to selling prices. It is also possible to include/exclude non-inventory items from the reports.

Sales by Customer: Right-click on the 'Delivery Notes' folder or a customer folder under 'Delivery Notes' or on the 'All' folder and select 'View/Print Sales Report'.

Sales by Category: Right-click on the 'Stock By Category' folder or a category folder under 'Stock By Category' and select 'View/Print Sales Report'.

Sales by Product: Right-click on the 'All' folder under 'Stock By Category' and select 'View/Print Sales Report'.
